

BRITAIN IN GRIP OF TRAITORS

ARREST ANTI-I.R.A. PROTESTERS

Despite a hurried press blackout following events in Glasgow on the 15th March when large numbers of anti-I.R.A. demonstrators were arrested, shock and outrage was felt throughout Britain and it is thought that thousands of letters have poured in protesting against the arrests.

Scottish patriots had gathered on Glasgow Green and prepared to form an orderly march of protest against the I.R.A. Although there was no signs of trouble, and the marchers were orderly and respectable, large numbers of police moved in and each grabbed any civilian standing nearby. In total, 58 were arrested and charged with various offences.

The events seem to follow a disturbing new pattern in Home Office policy since the Conservatives assumed control. On Sunday the 27th January, thousands of police in Birmingham escorted and protected a march by I.R.A. sympathisers. While British ex-servicemen staged a silent protest, hundreds of people largely organised by the British Movement tried to break through the police defences to get at the extremists who were taking part in the march which filed past the Rotunda public house where in 1974, twenty one young Britons had died in an I.R.A. bombing outrage.

At the end of the day, police had arrested 17 anti-I.R.A. demonstrators and there had been a number of casualties. Taking part in what has been described as 'The March of Traitors' were, ANAL, the Socialist Workers Party, the Labour Party, the Communist Party of Great Britain, the International Marxist

Group and other extreme Left-wing groups.

Concern was also expressed that whereas the Press played down the public's disgust at the march being allowed at all, the media concentrated its publicity and criticism on Stuart Smith-Blain, a young fusilier who waved his fist angrily at the Left-wing demonstrators. Stuart's pretty sister, Linda had been badly injured in the Birmingham bomb explosions.

On related matters, concern has been felt and complaints have been made about the rising number of arrests of anti-Communists in Britain. These include Michael McLaughlin, National Chairman of the British Movement and internationally acclaimed writer who has lifted the lid off a number of government cover-ups and press distortions.

On October 17th last year, he was found guilty at a highly controversial court case where he was denied to present a defence, of six charges of

criticising government policy. He was sentenced to serve six four-month prison sentences to run concurrently after being found guilty of criticising the Government's immigration policy; publishing a sticker calling for the repeal of the Race Relations Act and, publishing a sticker condemning the Labour Government's part in backing terrorist murders in Rhodesia.

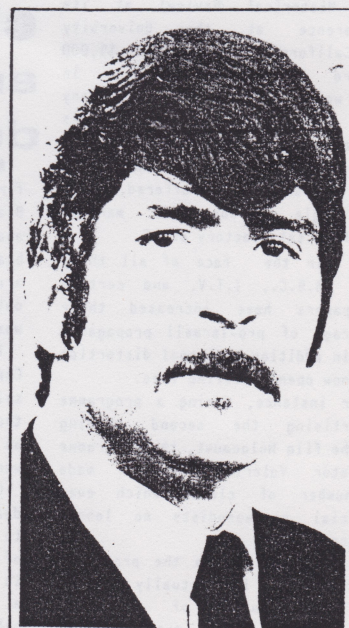

Taken in handcuffs to Liverpool's Walton Prison, he was forced to share a cell with a member of the extreme African-nationalist sect, a Rastafarian and, when he complained of his treatment, was placed in a cell with a deranged inmate who defecated on the floor, threw water around the cell and urinated in the cell's only water jug.

Sean Leahy, ..and other teenagers were attacked by Left-wingers for wearing anti-Communist badges. Police arrived and although it was generally recognised that the reds had started the violence, Sean and the other boys were ejected. The reds cheered the police and jeered at the anti-Communists who on returning the reds taunts, were arrested by the police and were imprisoned in Wormwood Scrubs prison for three weeks after being charged with 'behaviour likely to lead to a breach of the peace.' None of the reds were arrested.

Paul Stewart. Was arrested and remanded in custody in Leeds for handing out anti-

Communist leaflets. A number of people were upset at the arrest in which four police officers manhandled the boy. Callers at police stations were told to: "Piss off or be arrested."

Police have also arrested a number of people for taunting reds with anti-Communist salutes.

Michael McLaughlin, writer and Chairman of the British Movement, who was imprisoned for criticising the Government's policy.

CONTROVERSY GROWS OVER SIX MILLION

There is increasing controversy throughout the world concerning the validity of claims that National Socialist Germany exterminated Jews. Three-quarters of the world's population have long held that the 6-million allegation is spurious propaganda in favour of Zionism and the Zionist occupation of Palestine now called 'Israel'.

The fictional film: 'Holocaust' which was passed off in the West as being 'fact' was ridiculed in many parts of the world and refused a showing. There was so much resentment in Spain at the unashamed propaganda content of it that police throughout the country guarded the homes of prominent Jews. In Germany, radio stations were blown up. Here in Britain, 'Holocaust' was given unprecedented advance publicity and the B.B.C. claimed that it was top-rated. They declined however to give figures but when JICTAR announced their findings, it was discovered that only in Britain's remotest areas such as north-east Scotland where people have little else to do anyway, had the ratings moved into the top ten.

In Australia, the community radio station 3CR started a nationwide controversy when John Bennett, Secretary of the Victorian Council for Civil Liberties defended the station's policy of putting both sides of the story out and he himself has drawn fire by recommending Australians to read 'Six Million Lost and Found', 'The Hoax of the 20th Century' etc.

Throughout the world, sales of the books have reached astronomical proportions despite efforts to suppress knowledge of them.

The prestigious 'Institute for Historical Review' at its conference at the University of California has offered \$5,000 reward to anybody anywhere in the world who can provide any real evidence that Hitler's Germany either made or used gas chambers. Now, a year since the reward was offered, not a single person has managed to offer satisfactory proof.

In the face of all this, the B.B.C., I.T.V. and certain newspapers have increased their coverage of pro-Israeli propaganda and in addition to normal distortion are now openly telling lies.

For instance, during a programme advertising the second showing of the film Holocaust, the programme narrator Valerie Singleton made a number of claims which even official propagandists no longer subscribe to.

It was claimed in the programme that Hitler had actually ordered the extermination of Jews yet no historian has ever offered any evidence to support such a claim and the world-famous author, David Irving has offered a multi-thousand pound reward to anybody who can provide documentary evidence of such a nature.

It was also claimed in the programme that free discussion on the subject was legal in Germany. In fact, hundreds of people in Germany are either in gaol or awaiting trial for publicly disclaiming that National Socialist Germany had such a policy.

Even German Jews are ironically being persecuted for standing up to be counted in the defence of Hitler's National Socialism.

J.G.Burg, the German-Jewish author of the book: 'Maidenek Forever - Question Mark' has been prosecuted for alleging that there was no extermination program at Maidenek or anywhere else. The book condemns the prosecution of Germany's National Socialist leaders and denounces as a legal circus the Nuremberg Trials. J.G.Burg has been ostracised by propagandists.

Another German Jew, Josef Ginsburg, a printer in Munich agrees with him. He complains that the State of Israel has blocked all honest research into the subject and goes on to say that "the roadblock to research is due to the fact that one can exact that from six million dead, one can exact more reparations than from say 6,000."

In America, there have been public demonstrations outside the offices of the National Broadcasting Company (NBC) for carrying persistent illfounded Zionist propaganda. In Canada, similar offices were picketed by Canadians.

Now, throughout the world, people of many political persuasions are questing the extent of this Israeli propaganda. Here in Britain, more and more people are expressing disquiet at the volume of absurd propaganda in favour of Jews.

Editor's Note: The reward offered should read \$25,000 and not \$5,000.

In Britain children are dissi- dents

New Equals, the Government financed newspaper which promotes Black interests in Britain and which is given out free, boasts that three children are to be prosecuted for handing out literature that they claim was 'racist'.

The same outfit, the so-called Commission for Racial Equality sells a book which brags that the Romans never used Britons as slaves because the Britons were too stupid.

Others who have been already dealt with or have their trials to face include the Leader of a political Party which is opposed to the Government; a vicar for interpreting the bible differently from that which is required by the Government - two youths for publishing stickers which opposed immigration, a Party political official, two people for possessing literature disapproving of the Govern-

MEDIA DISTORTS FACTS ON 1936 OLYMPICS

The death of Jesse Owens, the coloured American athlete, gave the green light to Britain's air and press medias to serve up a bigger than usual helping of anti-White propaganda.

News commentators and newspapers unable to contain their racial-masochistic excitement gleefully reported that Jesse Owens had been the man 'who shattered Hitler's race theories.'

What are the real facts? Jesse Owens won four gold medals at the 1936 Olympics. All together 130 gold medals were won - nearly all by Whites.

If the winning of gold medals is as the anti-British media would have us believe, a criterion of racial equality or superiority, then rather than the Negroes proving their equality at these Olympics, their performance would appear to bear out Hitler's theories rather than disprove them.

For instance, at the end of the 1936 Olympics, National Socialist Germany emerged with 33 gold medals against America's 24 and Britain's 4 gold medals.

All told, at the end of the Games, Hitler's Germany had won a total of 89 medals against America's 56 medals and Britain's 14.

So, where is the tremendous Negro victory that the media has been telling us about recently?

What a perfect example of Press distortion in Britain's media today. Is this what democracy is all about? Feed people the wrong information, twist the truth, distort the facts and then let everybody vote?

The Press went on to say that Hitler refused to shake Owens' hand. What they forgot to mention was that the German leader didn't shake the hands of any winners simply because it is not normal procedure to do so. How glaring too that the media tells us of Hitler's disgust at Owens' victory -

without finding it necessary to furnish any evidence.

In addition to this, what a strange logic the British media seems to have. The fact that a single Negro breaks an athletic record is they claim evidence that the Negro is at least an equal and perhaps the superior being to the Whiteman.

By the same logic then, it follows that when the records set up by Jesse Owen were finally shattered by White runners, Hitler had been proved right after all!

In the end analysis, does the ability to temporarily run faster than an opponent make one a superior being? If this is so, why not have a greyhound race for Britain at the Moscow Olympics? Furthermore, it goes without saying that an African ape can swing from the trees better than our readers can! Meet your equals indeed...B.B.C. Style.

Perhaps the biggest and saddest irony of all was the fact that when Jesse Owens returned to his America, he was humiliated by being used as a sort of sideshow attraction, racing against animals. The media again it seems forgot to mention this - just as they forgot to point out that America's black hero, on his return to the States, wasn't allowed to ride at the front of a bus, had to board it by the back door. He wasn't allowed to live where he wanted. Lived under more restrictions than does say a black South African today and in answer to the charge that Hitler wouldn't shake his hand, Jesse Owens replied that the American President wouldn't either.

So much for Britain's media.

BEHIND THE PRESS BLACKOUTS AND LIES

To get a broadcasting job with the B.B.C., one has to sign a form stating that one does not hold Right-wing views. Left-wing views are not however taboo and a further example of the end result of this political bias is displayed by Radio 1 D.J. John Peel who says he will not play records by Right-wing bands but he often plays records made by Left-wing groups. One of these is The Gang of 4 who recently played at a concert in aid of the extreme Left-wing pro-Communist 'Troops Out Movement'.

A Dutch spokesman has complained that the BBC in its documentary Europe a Time Bomb screened on the 3rd March, deliberately contrived an illegal incident to distort facts.

Dutch police were filmed raiding a house at the dead of the night and in highly emotive scenes, arresting illegal immigrants and their families.

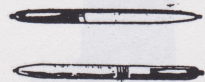

Most people don't know that this sort of thing is normal BBC behaviour. Their distortion of the facts has included such incidents as filming sunbathers in a Rhodesian park surrounded by tanks. The implication being that the Whites needed constant protection. The world laughed at this boob by the beeb because Rhodesia has never had tanks. They had been superimposed on the picture of the sunbathers.

Other distortions included paying Africans and Whites to stage incidents. For instance a Whiteman would be filmed striking a black and then the pair would be paid. Africans were filmed rooting through dustbins ostensibly for food and Africans were filmed peering through wire mesh at their 'concentration camps'. Unfortunately for the BBC, it was later discovered that in Rhodesia, such prisons were not constructed in that way.

Here in Britain, the BBC likewise doctors incidents for the benefit of the gullible public.

THE BRITISH MOVEMENT

The British Movement in its present form was formed in the Spring of 1975 and since that time has been led by Michael McLaughlin who is a writer.

Although the British Movement concerns itself with all issues of government and policy making, it is perhaps best known for its determined opposition to Communism and coloured immigration.

The media for its own reasons gives a totally distorted image of the British Movement. The facts are that the Movement alone sets out a rigid code of conduct and adheres to it. It attracts people from all walks of life, from all age groups and has a womens division.

It has branches and groups in most parts of the country and its membership and support is increasing at a faster rate than any other organisation.

It is supported by the British Patriot which has appeared monthly for 10 years and for which the subscription is £3.00 per annum. If you would like to see the B.M. Policy Statement, please send a 10p stamp.

Because The Phoenix is opposed to both Capitalism and Labour Party Marxism with its shoals of extreme Left-wing small fry, it begins its life defending itself from a myriad of enemies entrenched in the establishment and which seeks to protect their own.

For years, we have not only had to contend with the vast resources of the Big Two but have had to suffer in silence all the vicious insults, distortions and lies heaped upon us by the media which will not tolerate any criticism of the rotating dictatorship of the Labour and Tory Parties unless it is controlled criticism carried out by themselves and which gives the impression that theirs is a free media.

By giving our people a grossly distorted image of the British Movement and its publications, they have sought to keep us small so as to ensure that we were never big enough to counter their lies and distortions effectively. But, they have failed and in your hands you hold the proof that they have failed. At long last, through the years and the tears, we have reached the position where we can go into the battle for the hearts and minds of our people with our own newspaper.

Today, more than ever before, the mass media offers up a diet of distortion and our people are blissfully unaware of the extent of that distortion and as blissfully unaware of how far down the road to dictatorship that have been led. Now - and hopefully before it is too late, we can rush in with The Phoenix and stop the slide by exposing and opposing those who have presided over our country's betrayal. This is not however the time for doing a 'kneep up Mother Brown'. Attacks by the media are increasing and now that we are doing better than ever before, we can expect an escalation of their hysterics. They will pull out all stops to cripple us. One way or another - in their minds at least - the Phoenix has to be stopped. We are equally determined to keep it going but with our future so uncertain, it would be unfair to make wild promises or take subscriptions. For a trial period, the Phoenix will appear at irregular intervals. We hope that soon it will appear monthly - then double in size and then appear fortnightly. When we have settled into a pattern and when we can be reasonably sure that the media and its allies which stay strangely silent about the publication of numerous extreme Left-wing newspapers, funded from equally mysterious sources yet has hysterics over organised anti-Communism, has failed in its attempts to subdue us, we will look to the future with more confidence.

In the meantime we ask each of you sincerely to sell as many of each issue as you possibly can; we ask you to send donations because truly our financial resources are virtually nil and we ask you to fight in whatever capacity that you can, to stop Britain's slide into Communism.
